## REVIEW OF OPERATIONS

### LATROBE MAGNESIUM PROJECT

#### 1. Thermal Reduction Process

The Board believes that the use of the thermal reduction process for the production of magnesium from the Hazelwood brown coal fly ash will be economic and viable. The benefits of this process may be summarised as follows:

- It is a simplified proven technology responsible for the majority of the World's magnesium production.
- It can produce small quantities of magnesium economically.
- The production is capable of being expanded on a modular basis.
- A lower capital cost when compared to electrolytic plants.
- The construction period for a plant is 12 months.
- The scalability reduced the overall risks of the project.
- The production can be initially tailored to Australian demand requirements.

The process is simple, well proven and robust and therefore does not require complex solutions in the production process and does not consume as much electricity when compared to an electrolytic process. Therefore, both operating and capital costs for small production plants are greatly reduced when compared to electrolytic plants.

Australian and New Zealand consumption of magnesium has been recorded in the range between 10,000 tonnes to 12,000 tonnes per annum. All this magnesium is imported.

#### 2. Magnesium Market

Owing to the global financial crisis, the primary world production of magnesium in 2009 fell to approximately 650,000 tonnes. With the current low selling price of magnesium, a number of Chinese producers have recently either stopped production and / or reduced production. China was estimated to supply some 550,000 tonnes of the 2009's world production. Some half of this production is used locally within China.

The price of magnesium improved during the year up to 30 June 2010.

		<b>30-Jun-10</b>	<b>30-Jun-09</b>
FOB China	US\$ per tonne	3,000	2,500

In China, the operating costs of production increased during the year to approximately US\$1.00 per lb. The Chinese producers also have to pay a 10% export tax on magnesium metal.

#### 3. Hydromet Process

On 3 September 2009, the Company announced that it had entered into a Heads of Agreement with Ecoengineers to enter into an Agreement to jointly own the Hydromet Process that Ecoengineers has developed. The Hydromet Process is designed to reduce three main elements in the Hazelwood fly ash, being sulfur, iron and silica, to produce a suitable source material for the production of magnesium metal using the thermal reduction process.

Subject to the Hydromet Process meeting performance criteria, Latrobe will be granted the worldwide exclusive rights to license and exploit the technology. No royalties will be payable by Latrobe on magnesium derived from the fly ash delivered directly from the Hazelwood Power Station. Should Latrobe process the fly ash located in the Hazelwood dumps, it has agreed to retain Ecoengineers to provide consultancy services or pay it a negotiated royalty. Royalties will be payable from licensing the technology for the production of magnesium from other plants and other mineral processing applications and these royalties will be split equally between Latrobe and Ecoengineers.

Since September 2009, Latrobe has undertaken 12 Sets of trials containing some 44 individual trials. The trials have by in large continued to improve the Company's understanding of the fly ash and its various components.

From early retort work, the Company was able to benchmark the recovery of metallic Mg to certain elements within the fly ash. The following guidelines were established:

- sulphur content in the fly ash to 0.20% or less;
- iron oxide to at least 3.0%; and
- Silica to 2%.

## REVIEW OF OPERATIONS

Whilst the Company has not yet reached these benchmarks, the Hydromet Process has been able to reduce these elements in the fly ash to:

- sulphur content in the fly ash to 0.45%;
- iron oxide to at least 4.74%; and
- Silica to 4.73%.

These elements are further diluted by the addition of burnt lime to the retort feed. Burnt Lime has been added to the retort feed to increase the basicity levels of the fly ash.

The Company is continually revising the Hydromet Process to reduce these three elements. The Set 12 trials have only recently been completed and the results will be released to the market once they are completed.

### 4. Retort Test Work

The Company has conducted extensive retort work on the first 11 Sets of the Hydromet Trials. This work was a follow on of the initial work completed in 2009 and was targeted to achieving a commercial recovery rate of magnesium metal.

The work performed by Prominco Pty Ltd on behalf of Latrobe confirmed that progressive reductions in Sulfur and Iron in the fly ash resulted in increasing metallic magnesium recoveries.

10 March 2009, the Company announced that it had achieved a magnesium recovery rate of 56% and this rate has since been increased to 78%, as announced on 17 August 2010. Normal commercial recovery rate for dolime is in the order of 75%. This higher recovery rate was achieved using more ferrosilicon in the retort feed stock as compared to a traditional thermal reduction process, using dolime.

The Company is currently investigating ways in which to reduce this ferrosilicon usage by changing the composition of the retort feed stock and improving the beneficiated fly ash.

### 5. Next Stage

With the successful completion of this work, it is the Company's current intention to progress to a pre feasibility study to determine the economic viability of using the Hydromet and Thermal Reduction Processes to produce magnesium metal from the Hazelwood fly ash. As part of this study the Company will produce a number of sample to send to China for processing through a commercial retort. This step should validate the results achieved in the retort work in relation to magnesium recovery rates.

A bankable feasibility study will then be completed in relation to developing a plant with a production capacity of some 5,000 tonnes of magnesium metal increasing to 10,000 tonnes after the ramp up stage. Depending upon the market demands, further expansion of the facility may then be considered up to 40,000 tonnes

It is the Company's preference to develop the project in joint venture with a suitable partner. The Company will commence negotiations with potential partners once the pre feasibility study has been satisfactorily completed.

## NORTHERN TERRITORY URANIUM PROJECTS

In April 2007, the Company executed an agreement to acquire two uranium projects in the Northern Territory, exploration licence applications 25875 and 25906.

The exploration tenements cover an area of over 325 square kilometres and include exploration targets prospective for high grade vein and pegmatic type mineralisation in granitoids and for secondary calcrete uranium deposits.

Over the last two years, the Company has experienced time delays in transferring these exploration licences and seeking the necessary extensions and waivers to the reduction of these areas. All of these issues have now been resolved. On December 2009, the Company signed the Native Title agreements that provide access to these exploration areas.

An exploration program has been developed and over the next three months the Company is looking to complete this program.

## **REVIEW OF OPERATIONS**

The program involves the taking of rock chip/soil samples over 100 metre gridlines for the following areas:

- Crown Creek uranium bearing zone;
- Double Dams tantalum-tungsten prospect;
- Double Dams Copper Show prospect;
- Brookes Soak Alluvials uranium prospect; and
- 3 strong uranium anomalies in the southern portion of the tenement

## **CORPORATE GOVERNANCE STATEMENT**

### **Overview**

The Company and the Board of Directors are committed to achieving and demonstrating the highest standards of corporate governance and aim to comply with the Corporate Governance Principals and Recommendations set by the ASX Corporate Governance Council.

However, given the current size of both the Company's operations and the Board of Directors, it is not appropriate, cost effective or practical to comply fully with those principles and recommendations. Where a recommendation has not been followed, this fact has been disclosed together with the reasons for the departure.

Consistent with the ASX recommendations, the Company's corporate governance practices are regularly reviewed.

### **Principle 1 – Lay solid foundations for management and oversight**

The respective roles and responsibilities of the Board and management are set out below.

#### **Board Responsibilities**

The Board of Directors is accountable to shareholders for the performance of the Group. In carrying out its responsibilities, the Board undertakes to serve the interest of shareholders honestly, fairly and diligently.

The Board's responsibilities are reviewed annually to determine whether any changes are necessary or desirable. The responsibilities of the Board include:

- reporting to shareholders and the market;
- ensuring adequate risk management processes exist and are complied with;
- reviewing internal controls and external audit reports;
- ensuring regulatory compliance;
- monitoring financial performance, including approval of the annual and half-yearly financial reports and liaison with the Company auditors;
- reviewing the performance of senior management;
- monitoring the Board composition, Director selection and Board processes and performance;
- validating and approving corporate strategy;
- reviewing the assumptions and rationale underlying the annual plans; and
- authorising and monitoring major investment and strategic commitments.

#### **Directors Education**

The Company issues a formal letter of appointment for new Directors setting out the terms and conditions relevant to that appointment and the expectations of the role of the director.

The Company also provides a formal induction process which provides key information on the nature of the business and its operations

#### **Role of Chairman and Chief Executive Officer (CEO)**

The Chairman is currently carrying out the role of the CEO and is responsible for leading the Board, ensuring that Board activities are organised and efficiently conducted and for ensuring the Directors are properly briefed for meetings. The Chairman is also responsible for implementing the consolidated entity's strategies and Board policies.

A formal charter is in place which lays out the duties and responsibilities of the CEO. This charter also requires that the responsibilities and accountabilities of both the Board of Directors and the CEO are clearly defined. The assessment and monitoring of the CEO is the chief responsibility of the Board.

Performance is assessed against pre-determined objectives on a regular basis.

The Chairman's other responsibilities include:

- Ensuring that general meetings are conducted efficiently and shareholders have adequate opportunity to air their views and obtain answers to their queries.
- Present the view of the Board formally.

#### **Evaluating Performance of Senior Executives / Consultants**

The Board evaluates the performance of the senior executives and consultants and discharges its responsibilities in relation to remuneration of executives. In meeting this purpose, the Board's duties include (among others):

- regularly reviewing the executive remuneration policy of the Company to ensure that it is clearly linked to the performance of the Company and it motivates senior executives to pursue both short term deliverables and long term growth;

**CORPORATE GOVERNANCE STATEMENT**

- reviewing all aspects of the remuneration (including base pay, incentive payments, equity awards, retirement rights and service contracts) and any proposed change to the terms of employment of the CEO and his or her direct reports;
- developing and reviewing appropriate succession plans for key executives; and
- reviewing the recruitment, retention and termination policies and procedures for senior executives.

The Board has available to it the services of independent professional advisers to assist in the search for high calibre people at all levels and to ensure that the terms and conditions offered by the Company are competitive with those offered by comparable companies.

**Principle 2 – Structure the Board to add value**

The composition of the Board is structured to efficiently discharge its responsibilities and duties.

**Composition of the Board**

The Board of Directors is comprised of a Chairman and three non-executive Directors, all of whom have a broad range of skills and experience.

There are two independent Directors.

The Chairman undertakes the role of Chief Executive Officer.

In determining independence the Board has regard to the guidelines of Directors' independence in the ASX Corporate Governance Council and Best Practice Recommendations and other best practice guidelines.

Each Director's independent status is regularly assessed by the Board.

The Company does not comply with recommendations 2.1, 2.2, 2.3 and 2.4 which provide that a majority of the Board be independent Directors. The chair should be an independent Director and the role of the chair and CEO should not be exercised by the same individual. The Board should establish a nomination committee. The Company complies with recommendations 2.5 and 2.6.

At this stage of the Company's development, the Board considers it is neither appropriate nor cost effective for there to be a majority of independent Directors, an independent chairman and a separate CEO.

This matter continues to be under review and as circumstances allow, consideration will be given to the appropriate time to move to adopting the ASX Corporate Governance Guidelines.

The Board considers that its composition provides for the timely and efficient decision making required for the Company in its current circumstances.

The Board's size and composition is subject to limits imposed by the Company's constitution which provides for a minimum of three Directors and a maximum of seven.

Details of the members of the Board, their experience, expertise and qualifications are set out in the Directors Report on page 13-15.

The position/status and term in office of each Director at the date of this report is as follows: -

Name of Director	Position/Status	Term in Office	
		Years	Months
David Paterson	Chairman/ Executive – Non Independent	8	1
Kevin Torpey	Non-Executive– Non-Independent	8	5
Philip Bruce	Non-Executive– Independent	7	1
Rodney Foster	Non-Executive– Independent	4	5

The Board held 4 scheduled meetings last year together with a number of ad hoc meetings. The Directors attendance is disclosed on page 15 of the Director's Report.

**Access to independent professional advice**

All Directors are required to bring an independent judgement to bear on Board decisions.

To facilitate this, each Director has the right of access to all relevant Company information and to the Company's executives. The Directors also have access to external resources as required to fully discharge their obligations as Directors of the Company. The use of this resource is co-ordinated through the Chairman of the Board.

**Nomination committee**

The Board has not yet formed a separate nominations committee and that all matters that would normally be the responsibility of a nominations committee are dealt with by the full Board of Directors.

## **CORPORATE GOVERNANCE STATEMENT**

The Board reviews its composition on an annual basis to ensure that the Board has the appropriate mix of expertise and experience. When a vacancy exists, for whatever reasons, or where it is considered that the Board would benefit from the services of a new Director with particular skills, the Board will select appropriate candidates with relevant qualifications, skills and experience. External advisors may be used to assist in such a process. The Board will then appoint the most suitable candidate who must stand for election at the next general meeting of shareholders.

For Directors retiring by rotation, the Board assesses that director before recommending re-election.

The ASX Corporate Governance Council's "Corporate Governance and Recommendations" recommends the appointment of a Nomination Committee for prospective Board appointments. The Board considers the Company and the Board are currently not of sufficient size to justify the establishment of a Separate Nomination Committee.

### **Board performance evaluation**

The Company has processes in place to review the performance of the Board and its committees and individual Directors. Each year the Board of Directors give consideration to corporate governance matters, including the relevance of existing committees and to reviewing its own and individual Directors' performance. The Chairman is responsible for monitoring the contribution of individual Directors and consulting with them in any areas of improvement.

### **Principle 3 – Promote ethical and responsible decision making**

Companies should actively promote ethical and responsible decision making.

#### **Code of conduct**

The Board acknowledges the need for continued maintenance of the highest standards of Corporate Governance Practices and ethical conduct by all Directors and employees of the consolidated entity.

The Company has established a code of conduct applicable to all Directors and employees. The requirement to comply with the code is mandatory and is communicated to all employees. The code sets out standards of conduct, behaviour and professionalism.

The shareholder communications strategy, the securities trading policy, the continuous disclosure policy collectively form a solid ethical foundation for the Company's ethical practices.

#### **Policy on dealing in Company securities**

The Company has a policy on how and when the Directors and employees may deal in the Company's securities. The purpose of this policy is to ensure that the Directors and employees deal in the Company's securities in a manner which properly reflects their fiduciary duty and that they do not transact in those securities whilst in possession of price sensitive information.

This policy requires all Directors and employees to seek approval from the Chairman and Company Secretary prior to dealing in the Company's securities.

The Company has introduced compliance standards and procedures to ensure that the policy is properly implemented. In addition there is also an internal review mechanism to assess compliance and effectiveness.

### **Principle 4 – Safeguard Integrity in financial reporting**

Companies should have a structure to independently verify and safeguard the integrity of their financial reporting.

#### **Audit Committee**

The Board has formed a separate Audit Committee. The members of the Audit Committee during the year were:

- Philip Bruce – Chairman
- David Paterson

The structure of the Audit Committee does not comply with recommendation 4.2 which recommends that the Audit Committee consists of only Non-Executive Directors. The committee does have an independent Chairman who is not the Chairman of the Board.

The Board considers that given its current size and structure it is neither appropriate nor cost effective for this recommendation to be adopted in full.

The committee met twice during the year. The Audit Committee has adopted a formal charter which sets out the responsibilities of the Audit Committee.

The responsibilities of the Audit Committee include:

## **CORPORATE GOVERNANCE STATEMENT**

- reviewing the annual and half year financial reports to ensure compliance with Australian Accounting Standards and generally accepted accounting principles;
- monitoring corporate risk management practices;
- review and approval of the consolidated entity's accounting policies and procedures;
- reviewing external audit plans;
- reviewing the nomination, performance and independence of the external auditors; and
- organising, reviewing and reporting on any special reviews or investigations deemed necessary by the Board.

The Audit Committee has received confirmation in writing from the Chairman and the Company Secretary that the Company's Financial Report for the financial year ended 30 June 2010 presents a true and fair view in all material respects of the Company's financial position and operational results and are in accordance with relevant accounting standards.

### **External auditors**

The full Board is responsible for the appointment, removal and remuneration of the external auditors, and reviewing the terms of their engagement, and the scope and quality of the audit. In fulfilling its responsibilities, the Board receives regular reports from management and the external auditors at least once a year, or more frequently if necessary. The external auditors have a clear line of direct communication at any time to the Chairman of the Board.

The current auditors, Nexia Court & Co were appointed on 30 November 2009. The Australian accounting bodies' statement on professional independence requires mandatory rotation of audit partners for listed companies every five years. Nexia Court & Co confirm that they conform with the requirements of the statement.

Nexia Court & Co are required to attend the Annual General Meeting and be available to answer shareholder questions about the conduct of the audit and the preparation and content of the Auditor's Report.

### **Principle 5 – Making timely and balanced disclosure**

Companies should promote timely and balanced disclosure of the matters concerning the Company. The Company promotes timely and balanced disclosure of any material matters concerning the Company.

The Company has a written policy on information disclosure that focuses on the continuous disclosure of any information concerning the Company and its controlled entities that a reasonable person would expect to have a material effect on the price of the Company's securities.

The Company Secretary in consultation with the Chairman and Directors, is responsible for communications with the ASX. He is also responsible for ensuring compliance with the continuous disclosure requirements of the ASX Listing Rules, and overseeing and co-ordinating information disclosure to the ASX, analysts, brokers, shareholders, the media and the general public.

### **Principle 6 – Respect the rights of shareholders**

Companies should respect the rights of shareholders and facilitate their effective exercise of those rights.

#### **Communication with shareholders**

The Board recognises and respects the rights of our shareholders as the beneficial owners of the Company. In order to facilitate the effective exercise of those rights, the Company follows a communications strategy that aims to empower shareholders by:

- communicating effectively with them;
- providing easy access to balanced and understandable information about the Company; and
- encouraging and facilitating shareholder participation in general meetings.

The Company achieves this through the following avenues:

#### **Regular mailings**

The Company provides shareholders with copies of all announcements made to the ASX by mail on request. Copies are also available via an electronic link to the ASX web site, ensuring that all shareholders are kept informed about the Company.

Shareholders also have the option of receiving a hard copy of the Annual Report each year.

#### **General meetings**

All shareholders are invited to attend the Annual General Meetings which are held in Sydney. The full Board and senior executives are present and available to answer questions from the floor, as are the External Auditor.

The Company posts corporate information in the Investor Section of its Company website at [www.latrobemagnesium.com](http://www.latrobemagnesium.com)

## **CORPORATE GOVERNANCE STATEMENT**

### **Principle 7 – Recognise and manage risk**

Companies should establish a sound system of risk oversight and management and internal control.

The Board oversees the establishment, implementation and review of the Company's Risk Management System. To ensure it meets its responsibilities, the Board has implemented appropriate systems for identifying, assessing, monitoring and managing material risk throughout the organisation.

The Board identifies potential areas of business risk arising from changes in the financial and economic circumstances of its operating environment. It regularly assesses the Company performance in light of risks identified. It also reviews the effectiveness of the implementation of the Company's risk management and internal control system on a regular basis.

The Board does not employ an internal auditor, although as part of the Company's strategy to implement an integrated framework of control, the Board requested the external auditors review internal control procedures. Recommendations once presented are considered by the Board.

The Board has received written consent from the Chairman and the Company Secretary that the integrity of the financial statements is founded on a sound system of risk management, internal compliance and control system which is operating efficiently in all material respects.

The Board requires the declaration prior to the Directors signing the Company's financial statements.

### **Principle 8 – Remunerate fairly and responsibly**

Companies should ensure that the level and composition of remuneration is sufficient and reasonable and that the relationship to performance is clear.

The role of the Remuneration Committee is undertaken by the full Board of Directors. The Committee has adopted a formal charter. The main responsibilities of the Committee are: -

- review and approve the Group's policy for determining executive remuneration and any amendments to that policy;
- review the on-going appropriateness and relevance of the policy;
- consider and make recommendations on the remuneration of executive Directors (including base salary, incentive payments, equity awards and service contracts);
- review and approve the design of all equity based plans;
- review and approve the total proposed payments under each plan; and
- review and approve the remuneration levels for non-executive Directors.

### **Executive Directors and executive remuneration**

The remuneration committee reviews and approves the policy for determining an executive's remuneration and any amendments to that policy.

Executive remuneration and other terms of employment are reviewed annually having regard to relevant comparative information and independent expert advice, if required.

Remuneration packages include basic salary, superannuation and the rights of participation in the Company's Employee Share Purchase Plan. These are set at levels that are intended to attract and retain executives capable of effectively managing the Company's operations.

Consideration is also given to reasonableness, acceptability to shareholders and appropriateness for the current level of operations.

### **Non-executive Directors**

Remuneration of Non-Executive Directors is determined by the Board based on relevant comparative independent expert advice and the maximum amount approved by shareholders from time to time. They have the right to participate in the Company's Employee Share Purchase Plan.

Further information on Directors and executive remuneration is included in the remuneration report which forms part of the Directors' report.

The Company does not comply with recommendation 8.1 in relation to the composition of the Remuneration Committee in that it does not consist of a majority of independent Directors. The Board considers at this stage of the Company's development it is neither appropriate nor cost effective to adopt the full ASX Corporate Governance guidelines.

## DIRECTORS' REPORT

The directors present their report together with the financial report of Latrobe Magnesium Limited ("Company") and of the group, being the Company and its subsidiaries for the financial year ended 30 June 2010 and the auditor's report thereon.

### DIRECTORS

The following persons were directors of Latrobe Magnesium Limited during the financial year and up to the date of this report.

D O Paterson (Chairman)  
K A Torpey  
P F Bruce  
R D Foster

### PRINCIPAL ACTIVITIES

During the year the principal continuing activities of the Group consisted of:

- advancement of the Latrobe Magnesium Project through the continued evaluation of the thermal reduction process to produce magnesium metal; and
- retention of the Northern Territory exploration areas.

### OPERATING RESULTS

The consolidated net loss of the Group after providing for income tax amounted to \$276,001 compared to a net loss of \$514,924 for the previous corresponding period. The reduction was mainly due to the Group receiving a research and development rebate for 2008 and 2009 expenditure.

Further information on review of operations of the Group is shown separately in the Directors' Review of Operations on Page 4 – 6 of this report.

### Dividends

The Directors have not recommended the payment of a final dividend.

### Significant Changes in the State of Affairs

Significant changes in the state of affairs of the Group during the financial year were as follows:

An increase in the contributed equity of \$127,725, from \$24,059,296 to \$24,187,021 as a result of:

	<b>2010</b>
Issue of 11,487,980 fully paid ordinary shares in December 2009 at \$0.0104 to convert debt owing to directors and officers	\$ 119,475
Issue of 1,594,531 fully paid ordinary shares in December 2009 at \$0.0053 to convert debt owing to consultants	8,250
	-----
Net increase in share capital	127,725 =====

### MATTERS SUBSEQUENT TO BALANCE DATE

There is no other matter or circumstance that has arisen since 30 June 2010 that has significantly affected or may significantly affect:

- (a) the operations, in financial years subsequent to 30 June 2010, of the Group;
- (b) the results of those operations; or
- (c) the state of affairs, in financial years subsequent to 30 June 2010, of the Group.

On 28 September 2010 the financial report was authorised for issue by a resolution of Directors.

## DIRECTORS' REPORT

### LIKELY DEVELOPMENTS

Except for information disclosed on certain developments and the expected results of those developments included in this report under review of operations, further information on likely developments in the operations of the Group and the expected results of those operations have not been disclosed in this report because the Directors believe it would be likely to result in unreasonable prejudice to the Group.

### ENVIRONMENTAL REGULATIONS

The Group's operations are subject to normal State and Federal Environmental Regulations. There were no breaches of these regulations during the year or to the date of this report.

### INFORMATION ON DIRECTORS

#### **David Oliver Paterson – Executive Chairman**

**Age 56**

##### Experience and Expertise

Mr Paterson is a qualified non-practising Chartered Accountant and a graduate from the University of Queensland. He is the Director of Europacific Corporate Advisory Pty Ltd and has held an Investment Dealers Licence since 1990. Prior to forming Europacific in 1990, he was a Group Manager of the Corporate Services Division of Tricontinental Corporation Limited responsible for NSW and Queensland. He also worked for Coopers & Lybrand in Brisbane and Sydney in their Corporate Services Division. He has been involved in a wide range of corporate advisory assignments and underwritings of both debt and equity for a number of public and private companies.

Mr Paterson has experience in the property and mining industries, in relation to:

- Project financing;
- Financial analysis;
- Valuations; and
- The raising of debt and equity.

Appointed as a Director on 23 August 2002

##### Other Current Public Company Directorships

Argus Solutions Limited

##### Former Public Company Directorships in Last 3 Years

None

##### Special Responsibilities

Chairman of the Board of Directors

Member of Audit Committee

##### Interests in Securities

47,379,310 ordinary shares in Latrobe Magnesium Limited, these shares are held by Rimotran Pty Limited, as trustee for the David Paterson Super Fund Account and the Paterson Family Trust.

#### **Kevin Anthony Torpey – Non Executive Director**

**Age 71**

##### Experience and Expertise

Mr Torpey is a Chartered Professional Engineer and a graduate from Sydney University. Over the last 40 years he has been involved in the development of many diverse major projects involving oil, iron ore, aluminium, nickel, lead/zinc, uranium, magnesite, coal and gold, located locally, in Ireland and Indonesia. Generally these projects have been associated with major companies such as Consolidated Goldfields, EZ Industries, Alcan, International Nickel, Tara Minerals Limited (Ireland), Noranda, Denison Mines (Canada), Toyota, Mitsubishi and Iwatani. For the last 20 years his association has mainly been as a corporate officer initially as Managing Director of Denison Mines (Australia) and then Managing Director of Devex Limited. Over the last few years he has acted as a consultant to a number of companies involved in mining projects and new technologies.

Appointed as a Director on 11 April 2002

##### Other Current Public Company Directorships

Imperial Corporation Ltd.

## DIRECTORS' REPORT

### Former Public Company Directorships in Last 3 Years

None

### Special Responsibilities

None

### Interests in Securities

78,117,435 ordinary shares in Latrobe Magnesium Limited, these shares are held by Famallon Pty Ltd (Famallon No.2 Super Fund). Mr Torpey is a principal of Famallon Pty Ltd and a beneficiary of the fund.

### **Philip Francis Bruce – Non Executive Director**

**Age 58**

### Experience and Expertise

Mr Bruce is a director of P F Bruce & Associates, which provides corporate and project management services. Mr Bruce is a mining engineer with over thirty years resource industry experience in Australia, South Africa and Indonesia in operations, project development and corporate management. He was the CEO of PT BHP Indonesia, Managing Director of Triako Resources Limited and was the General Manager – Development for Plutonic Resources Limited, where he was technically responsible for acquisition and development of resource projects during the Company's period of growth from \$35 million to over \$1 billion in market capitalisation.

Appointed as a Director on 4 September 2003

### Other Current Public Company Directorships

Managing Director of Hill End Gold Limited

### Former Public Company Directorships in Last 3 Years

None

### Special Responsibilities

Chairman of Audit Committee

### Interests in Securities

5,013,605 ordinary shares in Latrobe Magnesium Limited, of these shares 1,572,115 are held as a direct interest and 3,441,490 shares are registered in the name of Diazill Pty Limited of which Mr Bruce is a Director.

### **Rodney David Foster – Non Executive Director**

**Age 49**

### Experience and Expertise

Mr Foster is a geologist with over 20 years experience in the gold exploration and mining industry in Western Australia and Victoria. Mr Foster's experience covers commodities including gold base metals and energy. He previously worked for Pancontinental Mining at Paddington, Samantha Exploration, CSR's Gold Resources Pty Ltd and North Kalgurli Mines on the Golden Mile, Money Mining NL and he was founding Managing Director of Goldminco NL, a Victorian based exploration Company.

Appointed as a Director on 21 April 2006.

### Other Current Public Company Directorships

Pacrim Energy Limited and Peak Resources Limited

### Former Public Company Directorships in Last 3 Years

None

### Special Responsibilities

None

### Interests in Securities

7,572,115 ordinary shares in Latrobe Magnesium Limited, of these shares 2,072,115 are held as a direct interest and 5,500,000 shares are held by Rodney Foster and Debra Foster as trustees for the Foster Family Super Fund.

## DIRECTORS' REPORT

### COMPANY SECRETARY

The Company Secretary is Mr David Hughes. Mr Hughes was appointed to the position of Company Secretary on 14 August 2002. Before joining Latrobe Magnesium Limited he has held similar positions with other listed companies for over 20 years. He is currently acting as Company Secretary of the following other listed public companies:

- Imperial Corporation Limited, Hudson Investment Group Limited, Hudson Resources Limited, Tiaro Coal Limited and Australian Bauxite Limited.

### MEETINGS OF DIRECTORS

The number of meetings of the Company's Board of Directors and of each Board Committee held during the year ended 30 June 2010 and the number of meetings attended by each Director was:

Director	Directors' Meetings		Audit Committee Meetings	
	Attended	Held Whilst in Office	Attended	Held Whilst in Office
D O Paterson	4	4	2	2
P F Bruce	4	4	2	2
K A Torpey	4	4	-	-
R D Foster	2	4	-	-

The Board has yet to appoint a Nominations and Remuneration Committee. The matters that would normally be the responsibility of these committees are dealt with by the full Board of Directors.

### Retirement, Election and Continuation in Office of Directors

- Mr D O Paterson is the Director retiring by rotation at the next Annual General Meeting of the Company. Mr Paterson being eligible in accordance with Article 12.2 of the Company's constitution offers himself for re-election.

### REMUNERATION REPORT - AUDITED

This report outlines the Remuneration Arrangements in place for each key management person of Latrobe Magnesium Limited. Principles used to determine the nature and amount of remuneration are:

- Competitiveness and reasonableness
- Acceptability to shareholders
- Performance linkage / alignment of executive compensation
- Transparency
- Appropriateness for level of operations

### Remuneration Committee

The Board has not yet formed a separate Remuneration Committee and all matters that would normally be the responsibility of a Remuneration Committee are dealt with by the full Board of Directors.

### Key Management Personnel

The full Board of Directors sets remuneration policies and practices generally and makes specific recommendations on remuneration packages and other terms of employment for Executive Directors, other Senior Executives and Non-Executive Directors.

Executive remuneration and other terms of employment are reviewed annually having regard to performance against goals set at the start of the year, relevant comparative information and independent expert advice. As well as basic salary, remuneration packages include superannuation. Directors and executives are also able to participate in an Employee Share Acquisition Plan.

Remuneration packages are set at levels that are intended to attract and retain executives capable of managing the Group's operations.

Remuneration of Non-Executive Directors is determined by the Board within the maximum amount approved by shareholders from time to time.

## DIRECTORS' REPORT

The Board undertakes an annual review of its performance and the performance of the Board Committees against goals set at the start of the year.

Details of the nature and amount of each element of the emoluments of each Director of Latrobe Magnesium Limited and each specified officer of the Company and the Group receiving the highest emoluments are set out in the following tables.

The information which follows through to the section titled "Share Options Granted to Key Management Personnel" is subject to audit by the external auditors.

<b>2010</b>	<b>Base</b>	<b>Super</b>	<b>Equity</b>	<b>Total</b>	<b>Performance</b>

<b>Total</b>	<b>125,000</b>	<b>9,000</b>	<b>-</b>	<b>134,000</b>	<b>-</b>

There are no additional executives employed by Latrobe Magnesium Limited other than those already disclosed.

### Service Agreements

There are currently no service agreements in place formalising the terms of remuneration of Directors or other key management personnel of the Company and the Group.

### Share Options Granted to Key Management Personnel

Granted - No options were granted to key management personnel over unissued shares during the financial year.

Exercised - No options were exercised by key management personnel during or in the period since the end of the financial year and up to the date of this report.

Expiry - No options expired during or since the end of the financial year.

End of Audited Remuneration Report

## DIRECTORS' REPORT

### SHARES UNDER OPTION

At the date of this report, the total number of unissued shares under option was 9,000,000. These options are exercisable on the following terms:

Number	Grant Date	Exercise Price	Expiry Date
9,000,000 unlisted options	26 August 2009	\$0.005	30 June 2012

### INDEMNIFICATION

During or since the end of financial year the Company has not been indemnified or made a relevant agreement to indemnify an officer or auditor of the Company or any related body corporate against liability incurred as such an officer or auditor. In addition, the Company has not paid, or agreed to pay, a premium in respect of a contract insuring against a liability incurred by an officer or auditor.

### PROCEEDINGS ON BEHALF OF THE COMPANY

No person has applied for leave of court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings. The Company was not a party to any such proceedings during the year.

### NON-AUDIT SERVICES

The Company may decide to employ the auditor on assignments additional to their statutory audit duties where the auditor's expertise and experience with the Company and/or the Group are important.

Details of the amounts paid or payable to Nexia Court & Co for services provided during the year are set out below:

	\$
Audit and Review of Financial Reports	28,731
Taxation Services	3,552
	=====

The Board of Directors ensure that the provision of the non-audit services is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001.

### AUDITORS' INDEPENDENT DECLARATION

A copy of the auditors' independence declaration as required under Section 307C of the *Corporations Act 2001* is set out on page 18 and forms part of this report.

This report is made in accordance with a resolution of the Directors.

**D O Paterson**  
Chairman

Sydney 28th day of September 2010

The Board of Directors  
Latrobe Magnesium Limited  
Suite 601, 16-20 Barrack Street  
Sydney NSW 2000

28 September 2010

Dear Board Members

**Auditor's Independence Declaration under section 307C of the *Corporations Act 2001***

In accordance with section 307C of the *Corporations Act 2001*, I am pleased to provide the following declaration of independence to the directors of Latrobe Magnesium Limited.

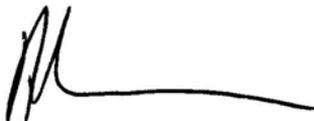

As lead audit partner for the audit of the financial statements of Latrobe Magnesium Limited for the financial year ended 30 June 2010, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- (a) the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (b) any applicable code of professional conduct in relation to the audit.

Yours sincerely

**Nexia Court & Co**  
**Chartered Accountants**

**Andrew S Hoffmann**  
**Partner**

## **DIRECTORS' DECLARATION**

The directors of the company declare that:

1. in the directors' opinion, the financial statements and accompanying notes set out on pages 20 to 45 are in accordance with the Corporations Act 2001 and:
  - (a) comply with Australian Accounting Standards and the Corporations Regulations 2001; and
  - (b) give a true and fair view of the company's financial position as at 30 June 2010 and of its performance for the year ended on that date;
2. note 1 confirms that the financial statements also comply with International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board (IASB);
3. in the directors' opinion, there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable;
4. the remuneration disclosures included in pages 15 to 16 of the directors' report (as part of the audited Remuneration Report), for the year ended 30 June 2010, comply with section 300A of the Corporations Act 2001; and

Money Management WA Pty Ltd and Gold Mines of WA Pty Ltd identified in note 14 are parties to the deed of cross guarantee under which each company guarantees the debts of the others. At the date of this declaration there are reasonable grounds to believe that the companies which are parties to this deed of cross guarantee will as a consolidated entity be able to meet any obligations or liabilities to which they are, or may become, subject to, by virtue of the deed of cross guarantee described in note 14.

This declaration is made in accordance with a resolution of the Board of Directors pursuant to section 295(4) of the Corporations Act 2001 and is signed for and on behalf of the directors by:

**D O Paterson**  
Chairman

Dated in Sydney this 28th day of September 2010

The above statement of cash flows should be read in conjunction with the accompanying notes.

## NOTES TO THE FINANCIAL STATEMENTS

### For the year ended 30 June 2010

#### NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

##### Basis of Preparation

The financial report is a general purpose financial report and covers Latrobe Magnesium Limited and its controlled Entities (the "Group") and Latrobe Magnesium Limited as an individual parent entity. Latrobe Magnesium Limited is a company limited by shares, incorporated in Australia, whose shares are publicly traded on the ASX.

The financial report has been prepared on an accruals basis and is based on historical costs and does not take into account changing money values. Cost is based on the fair values of the consideration given in exchange for assets.

It is also recommended that the financial report be considered together with any public announcements made by Latrobe Magnesium Limited and its controlled entities during the year ended 30 June 2010, in accordance with continuous disclosure obligations arising under both the Corporation Act 2001 and Australian Stock Exchange Listing Rules.

The financial report is presented in the Australian currency.

##### Statement of Compliance

The financial report complies with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standard ('AIFRS'). Compliance with AIFRS ensures that the financial report, comprising the financial statements and notes thereto, complies with International Financial Reporting Standards ('IFRS') in their entirety.

A summary of significant accounting policies of the Group under AIFRS are disclosed below. The accounting policies have been consistently applied, unless otherwise stated.

##### a. Principles of Consolidation

The consolidated financial statements comprise the financial statements of Latrobe Magnesium Limited and its subsidiaries at 30 June each year ("the Group"). Subsidiaries are entities over which the Group has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights. Potential voting rights that are currently exercisable or convertible are considered when assessing control. Consolidated financial statements include all subsidiaries from the date that control commences until the date that control ceases. The financial statements of subsidiaries are prepared for the same reporting period as the parent, using consistent accounting policies.

All inter-Company balances and transactions between entities in the Group, including any unrealised profits or losses, have been eliminated on consolidation.

Minority interests in the results and equity of subsidiaries are shown separately in the consolidated income statement and balance sheet respectively.

Subsidiaries are accounted for in the parent entity financial statements at cost.

A list of controlled entities is contained in Note 14 to the financial statements.

##### b. Income Tax

The Group adopts the liability method of tax-effect accounting whereby the income tax expense is based on the profit from ordinary activities adjusted for any non-assessable or disallowed items. It is calculated using the tax rates that have been enacted or are substantially enacted by the balance sheet date.

Deferred tax is accounted for using the balance sheet liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised or liability is settled. Deferred tax is credited in the income statement except where it relates to items that may be credited directly to equity, in which case the deferred tax is adjusted directly against equity.

Deferred income tax assets are recognised to the extent that it is probable that future tax profits will be available against which deductible temporary differences can be utilised. Deferred tax assets in relation to tax losses are not brought to account unless there is convincing evidence of realisation of the benefit.

## NOTES TO THE FINANCIAL STATEMENTS

### For the year ended 30 June 2010

The amount of benefits brought to account or which may be realised in the future is based on the assumption that no adverse change will occur in income taxation legislation and the anticipation that the Group will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

Latrobe Magnesium Limited and its wholly-owned Australian subsidiaries have formed an income tax Group under the Tax Consolidation Regime. Each entity in the Group recognises its own current and deferred tax liabilities, except for any deferred tax liabilities resulting from unused tax losses and tax credits, which are immediately assumed by the parent entity. The current tax liability of each Group entity is then subsequently assumed by the parent entity. The Group notified the ATO on 2 January 2003 that it had formed an income tax Group to apply from 1 July 2002. The tax Group has entered a tax sharing agreement whereby each Company in the Group contributes to the income tax payable in proportion to their contribution to the net profit before tax of the tax Group.

#### c. Foreign Currency Transactions and Balances

##### Functional and presentation currency

The functional currency of each of the Group's entities is measured using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars which is the parent entity's functional and presentation currency.

##### Transaction and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in the income statement, except where deferred in equity as a qualifying cash flow or net investment hedge.

Exchange differences arising on the translation of non-monetary items are recognised directly in equity to the extent that the gain or loss is directly recognised in equity, otherwise the exchange difference is recognised in the income statement.

#### d. Plant and Equipment

Plant and equipment is stated at historical cost, including costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management, less depreciation and any impairments.

The carrying amount of plant and equipment is reviewed annually by Directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the assets employment and subsequent disposal. The expected net cash flows have been discounted to their present value in determining recoverable amounts.

##### **Depreciation**

The depreciable amount of all fixed assets is depreciated on a straight line basis over their useful lives to the Group commencing from the time the asset is held ready for use.

The depreciation rates used for each class of depreciable assets are:

<u>Class of Fixed Asset</u>	<u>Depreciation Rate</u>
Plant and equipment - diminishing value	30-40%

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

Gains and losses on disposals are calculated as the difference between the net disposal proceeds and the asset's carrying amount and are included in the income statement in the year that the item is derecognised

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

## NOTES TO THE FINANCIAL STATEMENTS

### For the year ended 30 June 2010

e. **Intangibles**

Goodwill

Goodwill is initially recorded at the amount by which the purchase price for a business or for ownership interest in a controlled entity exceeds the fair value attributed to its net assets at date of acquisition. Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill on acquisitions of associates is included in investments in associates. Goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill acquired is allocated to each of the cash-generating units expected to benefit from the combination's synergies. Impairment is determined by assessing the recoverable amount of the cash-generating unit to which the goodwill relates. Impairment losses on goodwill cannot be reversed.

f. **Research and development**

Research costs are expensed as incurred. Development expenditure incurred on an individual project is capitalised if the product or service is technically feasible, adequate resources are available to complete the project, it is probable that future economic benefits will be generated and expenditure attributable to the project can be measured reliably. Expenditure capitalised comprises costs of materials, services, direct labour and an appropriate portion of overheads. Other development costs are expensed when they are incurred. Capitalised development expenditure is stated at cost less accumulated amortisation and any impairment losses and amortised over the period of expected future sales. The carrying value of development costs is reviewed annually when the asset is not yet available for use, or when events or circumstances indicate that the carrying value may be impaired.

g. **Impairment of Non Financial Assets**

At each reporting date the Group assesses whether there is any indication that individual assets are impaired. Where impairment indicators exist, recoverable amount is determined and impairment losses are recognised in the income statement where the asset's carrying value exceeds its recoverable amount. Recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purpose of assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

Where it is not possible to estimate recoverable amount for an individual asset, recoverable amount is determined for the cash-generating unit to which the asset belongs.

h. **Exploration and Evaluation Expenditure**

Exploration and evaluation assets, including the costs of acquiring licences, are capitalised as exploration and evaluation assets on an area of interest basis.

Exploration and evaluation assets are only recognised if the rights to tenure of the area of interest are current and either:

- (i) the expenditures are expected to be recouped through successful development and exploitation of the area of interest, or alternatively, by its sale or partial sale: or
- (ii) activities in the area of interest have not at the reporting date, reached a stage which permits a reasonable assessment of the existence or other wise of economically recoverable reserves and active and significant operations in, or in relation to, the area of interest are continuing.

Exploration and evaluation assets are assessed for impairment if:

- (i) sufficient data exists to determine technical feasibility and commercial viability, and
- (ii) facts and circumstances suggest that the carrying amount exceeds the recoverable amount.

Currently the practice is to capitalise all expenses that have been incurred and are in direct relation to the exploration of resources.

Indirect costs such as administration and general operations costs will be expensed on the basis that they are necessarily incurred.

Accumulated costs in relation to an abandoned area are written off in full against profit in the year in which the decision to abandon the area is made.

## NOTES TO THE FINANCIAL STATEMENTS

### For the year ended 30 June 2010

When production commences, the accumulated costs for the relevant area of interest are amortised over the life of the area according to the rate of depletion of the economically recoverable reserves.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

#### i. Investments and other financial assets

The Group classifies its financial assets in the following categories: financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments and available-for-sale financial assets. The classification depends on the purposes for which the investments were acquired. Management determines the classification of its investments at initial recognition and, in the case of assets classified as held-to-maturity, re-evaluates this designation at the end of each reporting period.

##### (i) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term. Derivatives are classified as held for trading unless they are designated as hedges. Assets in this category are classified as current assets.

##### (ii) Loans and receivables

Loan and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in active market. They are included in current assets, except for those with maturities greater than 12 months after the reporting period which are classified as non-current assets. Loans and receivables are included in trade and other receivables (note 6) in the balance sheet.

After initial measurement, loans and receivables are carried at amortised cost using the effective interest method less any allowance for impairment. Gains and losses are recognised in profit or loss when the loans and receivables are derecognised or impaired, as well as through amortisation process.

##### (iii) Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Group's management has the positive intention and ability to hold to maturity. If the Group were to sell other than an insignificant amount of held-to-maturity financial assets, the whole category would be tainted and reclassified as available-for-sale. Held-to-maturity financial assets are included in non-current assets, except for these with maturities less than 12 months from the end of the reporting period, which are classified as current assets.

##### (iv) Available-for-sale financial assets.

Available-for-sale financial assets, comprising principally marketable equity securities, are non-derivatives that are either designed in this category or not classified in any of the other categories. They are included in non-current assets unless the investment matures or management intends to dispose of the investment within 12 months of the end of the reporting period. Investments are designated as available-for-sale if they do not have fixed maturities and fixed or determinable payments and management intends to hold them for the medium or long term.

##### (v) Recognition and derecognition

Regular purchase and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the assets. Investments are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit and loss. Financial assets carried at fair value through profit and loss are initially recognised at fair value and transaction costs are expenses in profit and loss. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

When securities classified as available-for-sale are sold, the accumulated fair value adjustments recognised in other comprehensive income are reclassified to profit or loss as gains and losses from investment securities.

##### (vi) Subsequent measurement

Loans and receivables and held-to-maturity investments are carried at amortised cost using the effective interest method.

## NOTES TO THE FINANCIAL STATEMENTS

### For the year ended 30 June 2010

Available-for-sale financial assets and financial assets at fair value through profit or loss are subsequently carried at fair value. Gains or losses arising from changes in the fair value of the financial assets at fair value through profit or loss category are presented in profit or loss within other income or other expenses in the period in which they arise. Dividend income from financial assets at fair value through profit or loss is recognised in profit or loss as part of revenue from continuing operations when the Group's right to receive payments is established.

Changes in the fair value of monetary securities denominated in a foreign currency and classified as available-for-sale are analysed between translation differences resulting from changes in amortised cost of the security and other changes in the carrying amount of the security. The translation differences related to changes in the amortised cost are recognised in profit or loss, and other changes in carrying amount are recognised in other comprehensive income. Changes in the fair value of other monetary and non-monetary securities classified as available-for-sale are recognised in other comprehensive income.

Details on how the fair value of financial instruments is determined are disclosed in note 2d.

#### (vii) Impairment

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. In the case of equity securities classified as available-for-sale, a significant or prolonged decline in the fair value of a security below its cost is considered as an indicator that the securities are impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss – measure as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss is reclassified from equity and recognised in profit and loss as a reclassification adjustment. Impairment losses recognised in profit and loss on equity instruments classified as available-for-sale are not reversed through profit or loss.

If there is evidence of impairment for any of the Group's financial assets carried at amortised cost; the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, excluding future credit losses that have not been incurred. The cash flows are discounted at the financial asset's original effective interest rate. The loss is recognised in profit or loss.

#### j. **Finance Costs**

Finance costs directly attributable to the acquisition, construction or production of assets that necessarily take a substantial period of time to prepare for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other finance costs are recognised in income in the period in which they are incurred.

#### k. **Cash and Cash Equivalents**

Cash and cash equivalents includes cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within short-borrowings in current liabilities on the balance sheet.

#### l. **Revenue**

##### Interest

Revenue is recognised as interest accrues using the effective interest method. The effective interest method uses the effective interest rate which is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial asset.

##### Government Grants

Government grants are recognised at fair value where there is reasonable assurance that the grant will be received and all grant conditions will be met. Grants relating to expense items are recognised as income over the periods necessary to match the grant to the cost they are compensating.

#### m. **Trade and Other Payables**

Trade and other payables represent liabilities for goods and services provided to the Group prior to the year end and which are unpaid. These amounts are unsecured and have up to 60 day payment terms.

**NOTES TO THE FINANCIAL STATEMENTS**  
**For the year ended 30 June 2010**

n. **Interest bearing liabilities**

All loans and borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the income statement over the period of the loans and borrowings using the effective interest method.

All borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

o. **Other liabilities**

Other liabilities comprise non-current amounts due to related parties that do not bear interest and are repayable in 366 days from balance sheet date. As these are non-interest bearing, fair value at initial recognition requires an adjustment to discount these loans using a market-rate of interest for a similar instrument with a similar credit rating (Group's incremental borrowing rate). The discount is credited to the income statement immediately and amortised using the effective interest method.

p. **Provisions**

Provisions for legal claims, service warranties and make good obligations are recognised when the Group has a present legal or constructive obligation as a result of a past event, it is probable that that an outflow of economic resources will be required to settle the obligation and the amount can be reliably estimated. For service warranties, the likelihood that an outflow will be required to settle the obligation is determined by considering the class of obligations as a whole. Provisions are not recognised for future operating losses.

Where the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

q. **Share-based payments**

For equity-settled share-based payment transactions, the Company measures the goods or services received, and the corresponding increase in equity, directly, at the fair value of the goods or services received.

r. **Comparative Figures**

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

s. **Contributed equity**

Ordinary shares are classified as equity (refer Note 12).

Costs directly attributable to the issue of new shares or options are shown as a deduction from the equity proceeds, net of any income tax benefit. Costs directly attributable to the issue of new shares or options associated with the acquisition of a business are included as part of the purchase consideration.

t. **Dividends**

Provision is made for dividends declared, and no longer at the discretion of the Group, on or before the end of the financial year but not distributed at balance date.

u. **Earnings per share**

Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to members of Latrobe Magnesium Limited, adjusted for the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares during the year. The weighted average number of issued shares outstanding during the financial year does not include shares issued as part of the Employee Share Loan Plan that are treated as in-substance options.

## NOTES TO THE FINANCIAL STATEMENTS

### For the year ended 30 June 2010

#### Diluted earnings per share

Earnings used to calculate diluted earnings per share are calculated by adjusting the basic earnings by the after-tax effect of dividends and interest associated with dilutive potential ordinary shares. The weighted average number of shares used is adjusted for the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

#### v. **Goods and Services Tax (GST)**

Revenues, expenses are recognised net of GST except where GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

Cash flows are included in the cash flow statement on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

#### w. **Critical Accounting Estimates and Judgments**

The Directors evaluate, estimate and make judgements which are incorporated into the financial report based on historical knowledge and best available current information.

Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

##### (i) Going Concern Basis of Accounting

Notwithstanding the loss for the year, negative cash flow from operations and historical financial performance, the financial report has been prepared on a going concern basis. This assessment is based on a cash on hand balance at balance date, the collection of trade and other receivables since year end and loans available from the directors.

The directors have performed a review of the cash flow forecasts and have considered the cash flow needs of the company and consolidated group, including the ability to reduce the level of cash expenditure if required to do so.

Directors have initiated discussions with a number of parties that have expressed interest in supporting the Company with its capital requirements. At this time no financial commitment is contracted but discussions are continuing. The Company does have the ability to raise extra funds through a placement if required. However, should sufficient and appropriate capital not be available to the company on a timely basis the directors will require the cessation of operational activities of the magnesium project and a further reduction in expenditure on staff and directors. The business would, under this scenario, continue to operate on existing capital reserves

The Company has prepared cash flow forecasts for this worst-case scenario and the directors are therefore satisfied that the Company would be able to continue to operate as a going concern on this basis.

##### (ii) Impairment

The Group assesses impairment at each reporting date by evaluating conditions specific to the Group that may lead to an impairment of assets. Where an impairment trigger exists, the recoverable amount of the asset is determined. Value in use calculations performed in recoverable amounts incorporate a number of key estimates.

No impairment has been recognised in respect of the intangible assets for the year ended 30 June 2010 because:

- the Company's internal valuation indicates that the recoverable amount of the asset is greater than the book value of the assets;
- the magnesium price supports this valuation; and
- the Company is utilising the proven Thermal Reduction Process in its process with estimates of its capital and operating costs which are based on actual operations.

**NOTES TO THE FINANCIAL STATEMENTS**  
**For the year ended 30 June 2010**

No impairment has been recognised in respect of the mining tenements for the year ended 30 June 2010 because such costs are expected to be recouped through successful development and exploitation of the area or alternatively by its sale.

(iii) Exploration Expenditure

The Group capitalises expenditure relating to exploration and evaluation where it is considered likely to be recoverable or where the activities have not reached a stage which permits a reasonable assessment of the existence of reserves. While there are certain areas of interest from which no reserves have been extracted the directors are of the continued belief that such expenditure should not be written off since feasibility studies have not yet concluded. Such capitalised expenditure is carried at reporting date at \$122,008.

## NOTES TO THE FINANCIAL STATEMENTS

### For the year ended 30 June 2010

#### NOTE 2: FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's risk management policy sets out the Company's overall risk management framework and policies, including monthly review by the Board of the Company's financial position and financial forecasts.

##### a. Principal financial instruments

The principal financial instruments are as follows:

- a) Cash
- b) Trade and other receivables
- c) Inter Company balances
- d) Trade and other payables

The Group does not use derivative financial instruments, and has no off-balance sheet financial assets and liabilities at year-end.

##### b. Financial instrument risk exposure and management

In common with all other businesses, the Group is exposed to risks that arise from its use of financial instruments. These main risks, arising from the Group's financial instruments are interest rate risk, liquidity risk, foreign exchange currency risk, share market risk, credit risk and commodity risk. This note describes the Group's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these financial statements.

There have been no substantive changes in the Group's exposure to financial instrument risks, its objectives, policies and processes for managing those risks or the methods used to measure them from previous periods unless otherwise stated in this note.

##### c. General objectives, policies and processes

The Board has overall responsibility for the determination of the Group's risk management objectives and policies and has the responsibility for designing and operating processes that ensure the effective implementation of the objectives and policies to the Group's finance function. The Board receives monthly reports through which it reviews the effectiveness of the processes put in place and the appropriateness of the objectives and policies it sets.

The overall objective of the Board is to set policies that seek to reduce risk as far as possible without unduly affecting the Group's competitiveness and flexibility. Further details regarding these policies are set out below:

###### i) Liquidity risk

Liquidity risk arises from the Group's management of working capital. It is the risk that the Group will encounter difficulty in meeting its financial obligations as they fall due.

The Group's policy is to ensure that it will always have sufficient cash to allow it to meet its liabilities when they become due. To achieve this aim, it seeks to maintain cash balances (or agreed facilities) to meet expected requirements for a period of at least 90 days.

The Group's exposure to liquidity risk has been assessed as minimal. There are past due payables at balance date.

The Board receives cash flow projections on a monthly basis as well as information regarding cash balances. At the balance sheet date, these projections indicated that the Group expected to have sufficient liquid resources to meet its obligations under all reasonably expected circumstances.

###### (ii) Interest Rate Risk

The Group's exposure to interest risk arises when the value of financial instruments fluctuates as a result of changes in market interest rates and the effective weighted average interest rates on classes of financial assets and financial liabilities.

The Group's exposure to interest rate risk only extends to cash and cash equivalents at balance date. The Group's exposure to interest rate risk at 30 June 2010 and 30 June 2009 is set out in the following tables:

## NOTES TO THE FINANCIAL STATEMENTS

### For the year ended 30 June 2010

**CONSOLIDATED**

Year ended 30 June 2010	Weighted Average Interest Rate	Floating Interest Rate	Fixed Interest maturing in			Non-interest bearing	Total
			1 year or less	Over 1 to 5 years	More than 5 years		
	%	\$	\$	\$	\$	\$	\$

Financial liabilities							
Trade and other payables	-	-	-	-	-	(196,465)	(196,465)
Net financial assets		9,762	-	-	-	(60,615)	(50,853)

Year ended 30 June 2009	Weighted Average Interest Rate	Floating Interest Rate	Fixed Interest maturing in			Non-interest bearing	Total
			1 year or less	Over 1 to 5 years	More than 5 years		
	%	\$	\$	\$	\$	\$	\$
Financial assets							
Cash and cash equivalents	3.80	12,455	-	-	-	-	12,455
Trade & other receivables	-	-	-	-	-	149,313	149,313
Total Assets		12,455	-	-	-	149,313	161,768
Financial liabilities							
Trade and other payables	-	-	-	-	-	(102,599)	(102,599)
Net financial assets		12,455	-	-	-	46,714	59,169

(iii) Foreign exchange currency risk

The Group is exposed to fluctuations in foreign currencies arising from the sale and purchase of goods and services in currencies other than the Group's measurement currency.

There was no exposure to foreign currency risk at balance date.

(iv) Share market risk

The Company relies greatly on equity markets to raise capital for its exploration and its magnesium project development activities, and is thus exposed to equity market volatility.

When market conditions require prudent capital management, in consultation with its professional advisers the Group looks to alternative sources of funding, including the sale of assets and joint venture participation.

(v) Credit risk

Credit risk arises principally when the other party to a financial instrument fails to discharge its obligations in respect of that instrument.

The Group's exposure to credit risk arises from potential default of the counter party, with the maximum exposure equal to the carrying amount of these instruments.

Trade and receivable balances are monitored on an ongoing basis with the Group's exposure to bad debts minimal. There was no exposure to trade receivable credit risk at balance date.

The Group does not have any material credit risk exposure to any single receivable or Group of receivables under financial instruments entered into by the Group.

Other receivable comprise GST. Credit worthiness of debtors is undertaken when appropriate.

(vi) Commodity risk

Commodity price risk arises when the fair value of future cash flows of a financial instrument will fluctuate because of changes in commodity market prices.

## NOTES TO THE FINANCIAL STATEMENTS

### For the year ended 30 June 2010

The Group had no exposure to commodity price risk at balance date. The Group's potential exposure to commodity price risk will materialise in the event that development of the Group's Latrobe Magnesium Project proceeds.

#### (vii) Market risk

Market risk does not arise as the Group does not use interest bearing, tradeable or foreign currency financial instruments.

As the financial assets held by the company as at 30 June 2009 were cash and cash equivalents and trade and other receivables, and the value of these financial assets are not affected by the short-term movement in interest rates, a market risk sensitivity has not been performed.

#### (viii) Equity price risk

Equity price risk arises from investments in equity securities and Latrobe Magnesium Limited's issued capital.

The Group had no exposure to investments in equity securities at balance date.

The capacity of the Company to raise capital from time to time may be influenced by either or both market conditions and the price of the Company's listed securities at that time.

#### **d. Fair value of financial assets and liabilities**

The fair value of all monetary financial assets and financial liabilities of Latrobe Magnesium approximate their carrying value.

There are no off-balance sheet financial asset and liabilities at year-end. All financial assets and liabilities are denominated in Australian dollars.

#### **NOTE 3: LOSS FROM ORDINARY ACTIVITIES**

	Group	
	2010	2009
	\$	\$
The following revenue and expense items are relevant in explaining the financial performance for the period.		
<b>(i) Revenue</b>		
Finance Income	784	2,470
<b>Other Income</b>		
Research and development tax rebate	224,423	51,725
	225,207	54,195
<b>(ii) Expenses</b>

Disposal of fixed assets	850	-
Research and evaluation expenses	109,755	140,755
Finance Costs	-	55
Directors Fees	190,000	100,000
Directors Superannuation	17,100	9,000
Exploration Expense	200	167,527
Share based agent's expenses	39,420	-

## NOTES TO THE FINANCIAL STATEMENTS

### For the year ended 30 June 2010

**NOTE 4: INCOME TAX EXPENSE**

	Group	
	2010	2009
	\$	\$
The prima facie tax on loss from ordinary activities before income tax is reconciled to the income tax benefit as follows:		
Loss from ordinary activities before income tax	276,001	514,924
Prima facie tax benefit on loss from ordinary activities before income tax at 30%	(82,500)	(154,477)
Increase in income tax benefit due to:		
Other allowable deductions	(23,498)	(38,042)
Timing differences and tax losses not brought to account as future income tax benefit.	105,998	192,519
<b>Income tax benefit attributable to loss from ordinary activities before income tax</b>	<b>-</b>	<b>-</b>

**Net deferred tax asset not taken to account**

The potential future income tax benefit arising from tax losses has not been taken to account because of the absence of convincing evidence of the realisation of the benefit.

	Group	
	2010	2009
	\$	\$
Benefit of tax losses carried forward:		
Tax losses carried forward	1,480,042	1,436,850
Capital losses	36,272	86,530
	<u>1,516,314</u>	<u>1,523,380</u>

The deferred tax asset will only be released if:

- i. the Group derives future assessable income of a nature and an amount sufficient to enable the benefit to be realised;
- ii. the Group continues to comply with the conditions for deductibility imposed by the law; and
- iii. no changes in tax legislation adversely affect the Group in realising the benefit.

**NOTE 5: CASH AND CASH EQUIVALENTS**

	Group	
	2010	2009
	\$	\$

	Group	
	2010	2009
	\$	\$
Acquired in-process research and development, at cost	5,684,000	5,684,000

Latrobe Magnesium Project based in the Latrobe Valley in Victoria.

As the project is not held ready for use, the Company is required to perform an annual impairment test. The key assumptions underlying this impairment test have been based on data provided in the Worley Parson's Pre-feasibility Study and subsequent reports.

The key assumptions are adjusted to incorporate risks with a particular segment, and are summarised as follows:

- budgeted cash flow period of 20 years;
- initial production of 5,000 tonnes increasing to 40,000 tonnes;
- market information for metal prices and forward exchange rates;
- operating costs based upon third party consultant's estimates adjusted for a reduced calcination process;
- capital costs based upon third party consultant's estimates; and
- a pre-tax discount rate of 18%.

**Fully paid ordinary shares**

Ordinary shares participate in dividends and the proceeds on winding up of the parent entity in proportion to the number of shares held.

At shareholder meetings each ordinary share is entitled to one vote when a poll is called, otherwise each shareholder has one vote on a show of hands.

## NOTES TO THE FINANCIAL STATEMENTS

### For the year ended 30 June 2010

#### Options

At the date of this report, the unissued shares under options are as follows:

Number	Grant Date	Exercise Price	Expiry Date
9,000,000 unlisted options	26 August 2009	\$0.005	30 June 2012

#### Employee Share Plan Scheme

For information relating to the Latrobe Magnesium Limited Share Plan Acquisition Plan, refer to Note 22: Employee Benefits. No shares were issued during the financial year.

#### Capital management

The Group's considers its capital to comprise its ordinary share capital and reserves.

In managing its capital, the Group's primary objective as an explorer is to maintain a sufficient funding base to enable the Group to meet its working capital and strategic investment needs. The Group has no debt hence has a nil ratio.

In making decisions to adjust its capital structure to achieve these aims, either through altering its dividend policy, new share issues, or consideration of debt, the Group considers not only its short-term position but also its long-term operational and strategic objectives.

#### NOTE 13: RESERVES

## NOTES TO THE FINANCIAL STATEMENTS

### For the year ended 30 June 2010

#### NOTE 15: CAPITAL AND LEASING COMMITMENTS

The Company occupies office premises on a monthly tenancy with rent payable monthly in advance.

##### Exploration Leases

In order to maintain current rights of tenure to exploration tenements, the Company is required to outlay lease rentals and to meet the minimum expenditure requirements of the various government authorities. These obligations are subject to re-negotiation on renewal of the exploration licence or when application for a mining lease is made.

The exploration tenements can be relinquished at any time. These obligations, set out below are not provided for in the financial statements.

	Group	
	2010	2009
	\$	\$
Not later than one year	40,000	41,210
Later than one year but not later than 2 years	-	-
Later than two years but not later than 5 years	-	-
Later than five years	-	-
	40,000	41,210
	40,000	41,210

#### NOTE 16: SEGMENT REPORTING

The Group has adopted AASB 8 *Operating Segments* with effect from 1 July 2009. AASB 8 requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segments and to assess their performance. In contrast, the predecessor Standard (AASB 114 *Segment Reporting*) required an entity to identify two sets of segments (business and geographical), using a risks and returns approach, with the entity's system of internal financial reporting to key management personnel' serving only as the starting point for the identification of such segments. As a result, following the adoption of AASB 8, the board of directors believe there is only one operating segment and this is reflected in managements reporting processes.

#### NOTE 17: REMUNERATION OF DIRECTORS AND OTHER KEY MANAGEMENT PERSONNEL

Names and positions held of parent entity Directors at any time during the financial year are:

David Paterson	Chairman — Executive
Kevin Torpey	Director — Non-Executive
Philip Bruce	Director — Non-Executive
Rodney Foster	Director — Non-Executive

Depreciation	232	647
Transfer of capitalised costs to expenses	-	167,527
Other Non Cash Items	-	478
Loss on Disposal of Fixed Assets	850	-
Shares issued to convert debts from Officeholders and Consultants	127,725	-
Share based agent's expenses	39,420	-
<u>Changes in Assets and Liabilities:</u>		
(Increase)/Decrease in receivables and other assets	(75,204)	(8,185)
(Decrease)/Increase in trade and other payables	93,866	54,644
<b>Net Cash used in Operating Activities</b>	<b>(89,112)</b>	<b>(351,538)</b>

#### c. Acquisition and Disposal of Entities

There was no acquisition or disposal of controlled entities during the 2010 or 2009 financial years.

#### d. Non-cash Financing and Investing Activities

##### Share Issue

2010

- 11,487,980 fully paid ordinary shares were issued in December 2009 for the conversion of debt owing to directors and officers.
- 1,594,531 fully paid ordinary shares were issued in December 2009 in settlement of fees owing to consultants.

2009

- There were no shares issued during the 2009 financial year for other than cash consideration

#### NOTE 20: LOSS PER SHARE

	Group	
	2010	2009
	cents	cents
(a) Reconciliation of loss to net loss:		
Basic and diluted loss per share (cents per shares)	(0.046)	(0.089)
(b) Loss used in the calculation of EPS	(276,001)	(514,924)
(c) Weighted average number of ordinary shares outstanding during the year used in calculation of basic EPS	603,194,950	577,235,727

There were no unissued shares under option at 30 June 2010.

## NOTES TO THE FINANCIAL STATEMENTS

### For the year ended 30 June 2010

**NOTE 21: CONTINGENT LIABILITIES AND CONTINGENT ASSETS**

There are no contingent liabilities for the year ended 30 June 2010 (2009: Nil).

**NOTE 22: EMPLOYEE BENEFITS****Employees Share Acquisition Plan**

The Directors have approved the implementation of a Share Acquisition Plan.

The Plan provides for eligible participants to purchase shares in the Company tax effectively through salary sacrifice. Shares will be acquired on the Australian Stock Exchange at prevailing market prices on or about the first trading day following the normal monthly pay day. The shares including transaction costs will be met by the pre-tax remuneration forgone by the Plan participant. Administration costs of the Plan will be met by the Company.

The minimum contribution under the Plan is \$2,400 per annum. Participants can allocate up to 100% of their gross remuneration.

During the period under review and the previous corresponding period, there were no shares purchased in accordance with the employee share acquisition plan.

**NOTE 23: SHARE BASED PAYMENT**

On 21 August 2009, the company issued 9,000,000 options as consideration for corporate advisory services rendered by Data Tech Financial Services Pty Limited. The options, which expire on 30 June 2012, are fully vested and are exercisable at a price of \$0.005.

Vested number	Granted number	Grant date	Value per option at grant date	Exercise Price \$	Expiry Date	First Exercise Date
9,000,000	9,000,000	21/8/2009	\$0.00438	\$0.005	30/6/12	21/8/2009

The options issued above have been valued at the issue date at \$0.00438 per share using the Black-Scholes model resulting in a total cost of \$39,420.

*Inputs into the model:*

Grant date share price	\$0.005
Exercise price	\$0.005
Volatility	1.7767
Option life	1,044 days
Dividend yield	-
Risk-free interest rate	4.85%

Historical volatility has been the basis for determining expected share price volatility as it is assumed that this is indicative of future movements.

**NOTE 24: EVENTS SUBSEQUENT TO REPORTING DATE**

There are no significant events subsequent to reporting date which will affect the operations and state of affairs of the Group.

## NOTES TO THE FINANCIAL STATEMENTS

### For the year ended 30 June 2010

#### NOTE 25: CHANGES IN ACCOUNTING STANDARDS

The following standards, amendments to standards and interpretations have been identified as those which may impact the entity in the period of initial application. They are available for early adoption at 30 June 2010, but have not been applied in preparing this financial report.

Australian Accounting Standard	Title	Mandatory Application Date <sup>1</sup>	Possible Impact
AASB 9	Financial Instruments	1 January 2013	AASB 9 and AASB 2009-11 address the classification and measurement of financial assets and are likely to affect the group's accounting for its financial assets. The group is yet to assess its full impact. However, initial indications are that it may affect the group's accounting for available-for sale financial assets, since AASB 9 only permits the recognition of fair value gains and losses in other comprehensive income if they relate to equity investment that are not held for trading. Fair value gains and losses on available-for-sale debt investments, for example, will therefore have to be recognised directly in profit or loss.
AASB 2009-11	Amendments to Australian Accounting Standards arising from AASB 9	1 January 2013	
AASB 2010-4	Further Amendments to Australian Accounting Standards arising from the Annual Improvements Project	1 January 2011	<p>The principle amendments contained in AASB 2010-4 are as follows:</p> <ul style="list-style-type: none"> <li>• accounting policy changes in the year of adoption (AASB 1);</li> <li>• revaluation basis as deemed cost (AASB 1);</li> <li>• use of deemed cost for operations subject to rate regulation (AASB 1);</li> <li>• clarification of disclosures (AASB 7);</li> <li>• clarification of statement of changes in equity (AASB 101);</li> <li>• significant events and transactions (AASB 134); and</li> <li>• fair value of award credits (AASB Interpretation 13).</li> </ul> <p>The amendments are not expected to have a significant impact on the financial statements.</p>
AASB Interpretation 19	Extinguishing Financial Liabilities with Equity Instruments	1 July 2010	AASB Interpretation 119 clarifies the accounting when an entity renegotiates the terms of its debt with the result that the liability is extinguished by the debtor issuing its own equity instruments to the creditor (debt for equity swap). It requires a gain or loss to be recognised in profit or loss which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued. The amendments are not expected to have a significant impact on the financial statements.
AASB 2009-13	Amendments to Australian Accounting Standards arising from Interpretation 19	1 July 2010	
AASB 2009-8	Amendments to Australian Accounting Standards – Group Cash-settled Share-based Payments Transactions	1 January 2010	These amendments confirm that an entity receiving goods or services in a group share-based payment arrangement must recognise an expense for those goods or services regardless of which entity in the group settles the transaction or whether the transaction is settled in shares or cash. They also clarify how the group-share-based payment arrangement should be measured, that is, whether it is measured as an equity- or a cash-settled transaction. The amendments are not expected to have a significant impact on the financial statements.

**NOTES TO THE FINANCIAL STATEMENTS**  
For the year ended 30 June 2010

**NOTE 26: AUDITOR'S REMUNERATION**

Details of the amounts paid or payable to Nexia Court & Co for services provided during the year are set out below

The Board of Directors ensure that the provision of the non-audit services is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001.

## INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF LATROBE MAGNESIUM LIMITED

### Report on the Financial Report

We have audited the accompanying financial report of Latrobe Magnesium Limited, which comprises the statement of financial position as at 30 June 2010, statement of comprehensive income, statement of changes in equity and statement of cash flows for the year ended on that date, a summary of significant accounting policies, other explanatory notes and the directors' declaration of the consolidated entity comprising the disclosing entity and the entities it controlled at the year's end or from time to time during the financial year.

#### *Directors' Responsibility for the Financial Report*

The directors of the disclosing entity are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances. In note 1, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that compliance with the Australian equivalents to International Financial Reporting Standards ensures that the financial report, comprising the financial statements and notes, complies with International Financial Reporting Standards.

#### *Auditor's Responsibility*

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

Our procedures include reading the other information in the Annual Report to determine whether it contains any material inconsistencies with the financial report.

Our audit did not involve an analysis of the prudence of business decisions made by directors or management.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### *Independence*

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001* would be in the same terms if it had been given to the directors at the time that this auditor's report was made.

Limited Liability by a scheme approved under professional standards legislation.  
Nexia Court & Co (ABN 71 502 156 733) is an independent New South Wales partnership and a member of Nexia International a worldwide network of independent accounting and consulting firms. Nexia International provides no services to clients.

*Auditor's Opinion*

In our opinion:

- (a) the financial report of Latrobe Magnesium Limited is in accordance with the *Corporations Act 2001*, including:
  - (i) giving a true and fair view of the disclosing entity's financial position as at 30 June 2010 and of its performance for the year ended on that date; and
  - (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001*; and
- (b) the financial report also complies with International Financial Reporting Standards as disclosed in note 1.

**Report on the Remuneration Report**

We have audited the Remuneration Report included in pages 15 to 16 of the directors' report for the year ended 30 June 2010. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

*Auditor's Opinion*

In our opinion, the Remuneration Report of Latrobe Magnesium Limited for the year ended 30 June 2010, complies with section 300A of the *Corporations Act 2001*.
